SKILLS SUMMARY

Languages:	Java, Python, C, C++
Frameworks:	Spring Boot, Flask, Java Swing, HTML, CSS
Tools/Platforms:	AWS, Docker, Kubernetes, Git, GitHub, Postman, MySQL, PostgreSQL
Backend:	REST APIs, Microservices, JWT, WebSocket
Core Concepts:	Data Structures and Algorithms (DSA), Object-Oriented Programming (OOP), Cloud Computing, Operating Systems, Computer Networks, System Design
Soft Skills:	Leadership, Problem-Solving, Team Collaboration

PROJECTS

Blood Connect | [GITHUB](#) Apr 2026 - May 2026

- Architected a full-stack blood donor platform with real-time WebSocket matching, PostgreSQL database, Firebase FCM push notifications, and automated emails.
- Engineered a Spring Boot REST API with JWT auth, three-tier role-based access (Donor/Requester/Admin), and Haversine geo-query to locate nearest 50 donors within a configurable radius.
- Deployed via Docker Compose with an Admin dashboard for donor verification, user management, and live platform statistics supporting 500+ users.

Tech Stack - Java, Spring Boot, JWT, REST APIs, WebSocket, Docker, PostgreSQL, Firebase FCM, React.js, Tailwind CSS

Library Management System | [GITHUB](#) Jul 2025

- Developed a role-based Library Management System (Admin/Student) in Java for book issuance, return tracking, and fine management across 500+ records.
- Secured login with SHA-256 hashing and built modular OOP architecture with file-based persistence, maintaining data integrity without an external database.
- Built a Java Swing UI with separate Admin/Student dashboards supporting multi-user sessions, transaction history, and real-time availability tracking.

Tech Stack - Java, Java Swing, SHA-256

Secure File System On AWS | [GITHUB](#) Mar 2025 - Jun 2025

- Architected a cloud-native file management system on AWS EC2 and Amazon S3 for scalable, secure multi-user file upload, retrieval, and deletion.
- Implemented IAM least-privilege access control for per-user file isolation and secured all endpoints with bcrypt password hashing and token-based authentication via Flask REST API.
- Engineered a responsive frontend with HTML/CSS/JavaScript integrated with RESTful APIs, enabling seamless document management for small businesses and personal cloud storage.

Tech Stack - Python, Flask, RESTful APIs, SQLite, AWS EC2, Amazon S3, IAM, HTML, CSS, JavaScript

TRAININGS

Data Structures and Algorithms - Cipher School | [Certificate](#) Jun 2025 - Jul 2025

- Completed an intensive hands-on training in core data structures, algorithms, and advanced problem-solving techniques.
- Enhanced algorithmic thinking for technical interviews and complex real-world software development challenges.
- Practiced competitive programming and optimized code performance under expert mentorship and guidance.

CERTIFICATIONS

AWS Certified Cloud Practitioner Amazon	Nov 2025
Oracle Cloud Infrastructure 2025 Certified Architect Associate Oracle	Sep 2025
Oracle Cloud Infrastructure 2025 Certified Foundations Associate Oracle	Aug 2025
Privacy and Security in Online Social Media NPTEL	May 2025

ACHIEVEMENTS

Google Skills Boost – 50+ Badges across Cloud, DevOps & Kubernetes Google	May 2026
Solved 250+ DSA problems across platforms like LeetCode, HackerRank and GeeksforGeeks, strengthening problem-solving and algorithmic thinking skills LPU	May 2026
Validated Java proficiency with a 4-star Silver badge, demonstrating solid coding and OOP skills LPU	Aug 2025
Consolation Prize – One India 2025 LPU	May 2025

EDUCATION

Lovely Professional University Bachelor of Technology - Computer Science and Engineering CGPA: 7.69	Punjab, India Since Aug 2023
KM Memo Academy Intermediate - PCM Percentage: 61	Munger, Bihar Apr 2020 - Apr 2022
