MOHIT KUMAR

ASPIRING CLOUD & DEVOPS ENGINEER

CONTACT

Email: mohitkr2468@gmail.com | **Phone:** +91 9263727001 | **LinkedIn:** linkedin.com/in/mohitkumar162 | **GitHub:** github.com/mohitkumar162

SUMMARY

Aspiring Cloud & DevOps Engineer with hands-on experience deploying containerized applications on AWS, Azure, and GCP. Skilled in automating CI/CD pipelines with GitHub Actions and Docker, provisioning cloud infrastructure using Terraform, and building scalable backend systems with Java and Spring Boot. Proficient in Kubernetes, cloud security (IAM, encryption), and infrastructure automation, with strong foundations in Data Structures, OOP, and DBMS backed by 300+ problems solved across coding platforms.

TECHNICAL SKILLS

Languages & Web: Java, Python, HTML, CSS
Frameworks & Tools: Spring Boot, Hibernate, Maven, Git, GitHub, Postman
Backend & Databases: REST APIs, JWT, PostgreSQL, MySQL
Cloud & DevOps: AWS, Azure, GCP, Docker, Kubernetes, GitHub Actions, CI/CD, Linux, Terraform
CS Fundamentals: DSA, OOP, DBMS, Operating Systems, Computer Networks
Soft Skills: Leadership, Problem-Solving, Continuous Learner, Adaptability

PROJECTS

Automated Cost Monitoring & Resource Optimization on AWS | *GitHub* Oct 2026

- Configured AWS Budgets with a $10 monthly spending limit and an 80% actual-cost alert threshold, integrating Amazon SNS for email notifications.
- Developed an AWS Lambda function to evaluate budget thresholds and generate cost-optimization recommendations, validating above-threshold ($8.50) and below-threshold ($5.50) scenarios in dry-run mode.
- Integrated Amazon CloudWatch Logs for execution monitoring and troubleshooting, demonstrating an event-driven, serverless cost-monitoring workflow.

Tech Stack: AWS Budgets, Amazon SNS, AWS Lambda, Amazon CloudWatch, Python, IAM

Task Pilot | *GitHub* July 2026

- Engineered a task management system using Java, Spring Boot, Hibernate, Spring Data JPA, and PostgreSQL, implementing JWT authentication and role-based access control (RBAC) for secure project and task management.
- Designed RESTful APIs for task, project, and dashboard modules with status and priority tracking, leveraging layered architecture and Hibernate ORM for CRUD operations with response times below 200 ms during local testing.
- Automated application build and deployment using Docker multi-stage builds and GitHub Actions CI/CD, reducing deployment time from 15 to under 3 minutes while publishing container images to GitHub Container Registry (GHCR).

Tech Stack: Java, Spring Boot, Hibernate, Spring Data JPA, PostgreSQL, JWT, REST APIs, Docker, GitHub Actions

Secure File System on AWS | *GitHub* Mar 2025 - Jun 2025

- Architected a cloud-based file management system supporting secure user file upload, retrieval, and deletion with secure file storage and access.
- Configured scalable AWS infrastructure with EC2, S3, IAM-based access control, load balancing, and Auto Scaling for reliable application deployment.
- Strengthened application availability, security, and operational reliability through automated scaling, infrastructure monitoring, and access controls.

Tech Stack: AWS, EC2, S3, IAM, VPC, ALB, Auto Scaling, Amazon CloudWatch, Python

TRAINING

Cloud Architecting - AWS Academy | *Certificate* Sep 2025 - Jan 2026

- Gained hands-on knowledge of designing scalable, highly available, and secure cloud solutions using AWS services.
- Learned AWS architectural principles, infrastructure design, networking, storage, compute, databases, and security fundamentals.
- Applied AWS Well-Architected Framework principles to evaluate cloud architectures for reliability, performance efficiency, security, and cost optimization.

Data Structures and Algorithms - Cipher School | *Certificate* Jun 2025 - Jul 2025

- Completed intensive hands-on training in Data Structures and Algorithms, strengthening problem-solving, algorithm design, and Java programming proficiency.
- Developed skills in algorithm optimization, complexity analysis, and data handling for real-world software development challenges.
- Applied DSA concepts to design and solve programming problems, focusing on scalable, efficient, and maintainable solutions under mentorship.

CERTIFICATIONS

AWS Certified Cloud Practitioner | *AWS* Nov 2025
Oracle Cloud Infrastructure 2025 Certified Architect Associate | *Oracle* Sep 2025
Privacy and Security in Online Social Media | *NPTEL* May 2025

ACHIEVEMENTS

- Google Skills Boost - Earned 130 Google Cloud Skill Badges in Cloud & DevOps July 2026
- Technical Coding - Solved 300+ problems on LeetCode, HackerRank and GFG May 2026
- Validated Java proficiency with a 4-star Silver badge, demonstrating solid coding and OOP skills Aug 2025
- Consolation Prize - One India 2025 Inter-School Competition in LPU May 2025

EDUCATION

Lovely Professional University Punjab, India
Bachelor of Technology - Computer Science and Engineering | CGPA: 7.74 Aug 2023 - Present

K N Memo Academy Munger, Bihar
Intermediate | Percentage: 61 2020 - 2022

Saraswati Vidya Mandir Munger, Bihar
Matriculation | Percentage: 70 2019 - 2020
